MARITIME ADMINISTRATION

CIRCULAR N° SOL 013

SHIP REPORTING SYSTEM SOLAS – Chapter V - Reg. 11.1

TO: SHIPOWNERS & SHIPS' OPERATORS & MANAGERS

Monaco, 10 Sep. 06

Due to some incidents for non-compliance with the Ship Reporting System requirement, the Administration requires that SVG registered ships sailing anywhere in the world must comply with all mandatory ship reporting systems adopted by the IMO, which are applicable.

Masters of ships to which a mandatory ship reporting system applies should report to the shore-based authority without delay when entering and, if necessary, when leaving the area covered by the system.

Relevant entries will be noted with the words "Mandatory system under SOLAS Regulation V/11-1".

Ships found in violation to the mandatory reporting schemes, will be subject to sanctions
